

Noah Patel

Seattle, WA • noah.patel@example.com • (425) 555-0172 • github.com/noahpatel

PROFILE

Software Engineer focused on backend systems, APIs, and cloud infrastructure. 1.5+ years of experience using Python, Java, AWS, and PostgreSQL to build reliable services. Strong foundation in algorithms, object-oriented design, and debugging.

TECHNICAL SKILLS

Python • Java • SQL • C++ | FastAPI • Spring Boot • REST • Docker | AWS EC2 • S3 • Lambda • SQS • RDS | PostgreSQL • Redis | Git • Linux • Data Structures & Algorithms

EXPERIENCE

Software Engineer | Aster Labs — Seattle, WA | Jan 2025 – Present

- Built Python APIs used by internal operations teams to process more than 250K requests per month.
- Implemented SQS workers for long-running jobs, reducing API timeout failures by 60%.
- Optimized PostgreSQL queries and indexes, improving several high-traffic endpoints by 35%.
- Added automated unit and integration tests using Pytest and improved service documentation.

Software Engineering Intern | Vertex Digital — Redmond, WA | Jun 2024 – Sep 2024

- Developed Java REST endpoints and SQL queries for a customer-support platform.
- Created Python scripts to automate data validation and recurring engineering reports.

SELECTED PROJECTS

Cloud Notes API — Python, FastAPI, AWS Lambda, DynamoDB. Built a serverless notes API with authentication, CRUD operations, and automated deployment.

Algorithm Visualizer — JavaScript, HTML, CSS. Created an interactive application demonstrating sorting, searching, and graph traversal algorithms.

EDUCATION

B.S. Computer Science — University of Washington, 2024 | GPA 3.7/4.0

ADDITIONAL

AWS Certified Developer – Associate, 2025
